HAIR BY AHNA

## COMPLEXION

If a client is using Retinol or equivalent cream or strong acne medications/treatments, please discontinue use at least 3 days prior to your makeup application. The ingredients in many of these products may cause adverse effect to certain makeup products. Only apply a light moisturizer the night before and the morning of your makeup application.

# MAKEUP

## MAKEUP REMOVAL

Makeup removal is required before services begin. This includes lash glue, old mascara, face makeup, etc. The night before your service, please double-cleanse your skin to remove impurities.

## FACIALS & DERMAPLANING

In order for makeup to go on smoothly you need a SMOOTH BASE. For this reason, we HIGHLY suggest a professional facial and dermaplaning treatment to help create a smooth canvas.

## LASH EXTENSIONS

Eyelash extensions are a great semi-permanent way to enhance your lashes! If you have chosen to have lash extensions applied, make sure to book your full set and fill. The full set should be scheduled at least two weeks prior to your event in order to try them out and make sure you like the fullness and length. Schedule your Fill two days before your event date.

# HAIR

## HAIR PREP

How you prep your hair before arriving for your styling service will make a major impact on how your style turns out.

For best results, you should arrive with CLEAN, freshly washed, DRY hair. ADDING DRY SHAMPOO DOES NOT MEAN YOU HAVE CLEAN HAIR. Please wash your hair the night before or the morning of your service. Do not add any styling products or conditioners to your hair. If you have naturally tangly hair, you may add a conditioner to the ends of your hair but do not add any to the top half by the roots. Make sure to arrive with COMPLETELY dry hair as wet or damp hair will not hold a style and blowdrying is not a service I offer.

---

## BROWS

Whether you choose to get microbladed, waxed, or do a basic tweezing a couple of days before, be sure to clean up your brows before your makeup application. Remember that the photographer will be close to your face, and you'll want to have clean brows in your photos.

## BANGS

Any client who is receiving hair styling that has traditional bangs should arrive with them already styled in the way that they prefer. (This does not include cut for side framing pieces). Most clients with bangs have a very specific way in which they style their bangs. This generally requires being styled when wet by blow drying. Since we do not offer wet styling this would need to be done before the client arrives.

---

## NATURAL HAIR TEXTURE

As you are choosing a style, be sure to take into consideration your own hair texture. If you are wanting a sleek, smooth style and you have naturally curly hair, please make sure to arrive with your hair already straightened so that we do not run over the allotted hair styling time. Minor straightening will be done for texture control; this applies to intensely curly hair that is intended to be worn stick straight.

---

## CURLS

If you are choosing a style that requires curls, do not straighten your hair before your appointment. This straightens the cuticle of the hair and will not allow the hair to hold a curl as well. If you need to smooth your hair do so with a round brush and blow dryer after washing.

## EXTENSIONS

Adding clip-in extensions to your hair can bring your hairstyle to a whole new level. We can help you to determine if extensions would help bring your vision to life! We can even order them for you!

---

# ADDITIONAL CONSIDERATIONS

## SPRAY TANNING

Spray tans are a perfect way to get your sun-kissed glow! If you are planning to try a spray tan, schedule your first application a few months before your event to try out the color before the big day.

# ATTIRE

wear a button-down shirt, robe, or loose-fitting top that can be easily removed after your service. Please note, there is a chance that hair and makeup products may transfer to your getting-ready outfit

# NAILS

Don't forget to schedule your nail appointment. Your manicure is just as important as your hair and makeup. I offer custom handpainted glue on nails for anyone in the wedding party! Please contact Hair by Ahna for more information.

# BRIDAL TRIAL INFORMATION

## INSPIRATION PHOTOS

Your look depends on a variety of factors.

**HAIR: Condition, length, thickness, texture, color**

**MAKEUP; Skin prep, texture, tone, hydration**

It is VERY important to choose photos of models that have the SAME hair/ eye color as your own. Heavily highlighted styles show more detail and dimension due to the variation in hair color. If your hair is primarily one color, your style will visually look much different. Some makeup pallet colors pair better with specific eye colors. The goal is to choose a combination that compliments each other.

## WHAT TO WEAR

Please wear a white or ivory top. This helps with color matching and will also help you envision your completed wedding ensemble.

## SCHEDULING

We request that all trials are scheduled between October & May. We understand that this may not be possible for some brides. We will gladly make an exception for brides that are out of state or brides that book our services a few months prior to their wedding date. Please email [bridalhairbyahna@gmail.com](mailto:bridalhairbyahna@gmail.com) to schedule your trial

## ADDITIONAL LOOKS

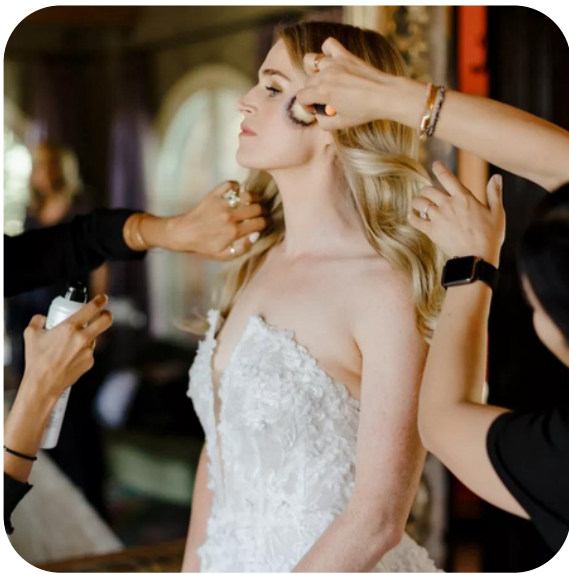

One look is included with each trial service. If you would like to experiment with additional looks at your trial, please inform me of that in advance so that we can schedule additional time. Please note this will be an additional fee.

---

# LOCATION

Trials are held at my home, office, suite, or salon unless otherwise agreed upon. If you would like Hair by Ahna to travel to you, a travel fee of \$.75 per mile will apply from the artist's location. Trials are typically held during normal business hours Monday through Thursday. A weekend premium rate of \$25 will be added per service for trials conducted on Friday, Saturday, or Sunday.

---

## SCHEDULING

Hair by Ahna will work with you to determine a start time and completion deadline. I will arrive up to 15 minutes prior to the start time to get set up. We do NOT create a time-slotted schedule. Some services may take longer than others. Hair by Ahna will work cohesively with other Stylist/Artist's. A client must be in our seat at all times and the next client must be readily available. Any client who is not present for their service forfeits that service. Ideally, the bride will receive her services towards the end. Stylist/Artist will leave when services are completed

WHAT TO  
EXPECT ON THE  
WEDDING DAY

---

## ADDITIONAL EXPENSES

Please come prepared with cash on hand to pay for any of the following: parking fees, adding clip-in extensions, adding any uncontracted services. These expenses will be paid directly to me.

## ACCOMMODATIONS

Please have chairs, tables and power outlets readily available. We REQUIRE a temperature-controlled environment of at least 65 degrees. Hair by Ahna will NOT work outside or in conditions that are too hot or too cold. Washrooms must be accessible

---

## FINISHING TOUCHES

Any necessary touchups will be completed as needed. If the bride has a veil and is not ready for the stylist to place it before they leave, Ahna will demonstrate those steps to a member of the bridal party.
